#### **SUPPLEMENTARY INFORMATION:**

##### **I. Abstract**

The Energy Policy Act of 2005, 25 U.S.C. 3503 authorizes the Secretary of the Interior to approve individual Tribal Energy Resource Agreements (TERAs). The intent of these agreements is to promote tribal oversight and management of energy and mineral resource development on tribal lands and further the goal of Indian self-determination. A TERA offers a tribe an alternative for developing energy-related business agreements and awarding leases and granting rights-of-way for energy facilities without having to obtain further approval from the Secretary.

This information collection conducted under TERA regulations at 25 CFR 224 will allow IEED to determine the capacity of tribes to manage the development of energy resources on tribal lands. Information collection:

- Enables IEED to engage in a consultation process with tribes that is designed to foster optimal pre-planning of development proposals and speed up the review and approval process for TERA agreements;
- Provides wide public notice and opportunity for review of TERA agreements by the public, industry, and government agencies;
- Ensures that the public has an avenue for review of the performance of tribes in implementing a TERA;
- Creates a process for preventing damage to sensitive resources as well as ensuring that the public has fully communicated with the tribe in the petition process;
- Ensures that a tribe is fully aware of any attempt by the Department of the Interior to resume management authority over energy resources on tribal lands; and

- Ensures that the tribal government fully endorses any relinquishment of a TERA.

## **II. Request for Comments**

The Assistant Secretary – Indian Affairs requests your comments on this collection concerning: (a) The necessity of this information collection for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) The accuracy of the agency’s estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) Ways we could enhance the quality, utility, and clarity of the information to be collected; and (d) Ways we could minimize the burden of the collection of the information on the respondents.

Please note that an agency may not conduct or sponsor, and an individual need not respond to, a collection of information unless it has a valid OMB Control Number.

It is our policy to make all comments available to the public for review at the location listed in the ADDRESSES section. Before including your address, phone number, e-mail address or other personal identifying information in your comment, you should be aware that your entire comment – including your personal identifying information – may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
